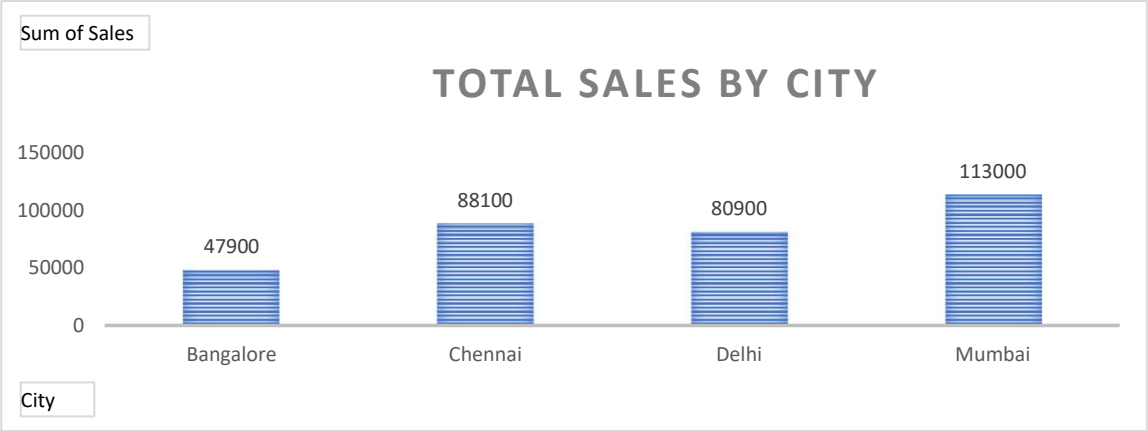
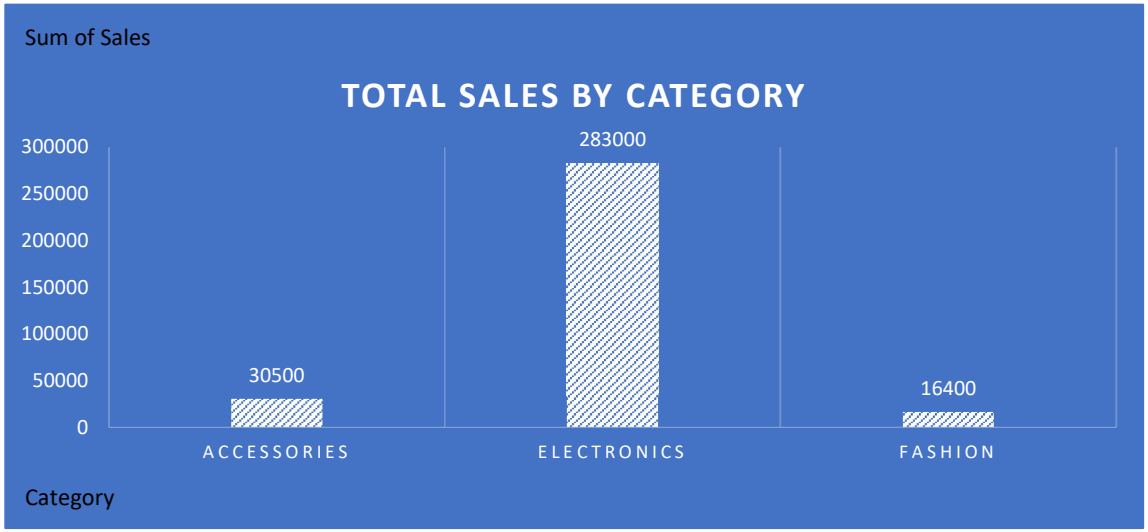
Sales Analysis Dashboard

Project Description : This dashboard analyzes sales performance across cities and product categories to identify key business insights.



City	Sum of Sales
Bangalore	47900
Chennai	88100
Delhi	80900
Mumbai	113000
Grand Total	**329900**

Key Insights
Mumbai has highest total sales (113000)
Bangalore has lowest sales (47900)
Delhi and Chennai show strong performance compared to Bangalore
Sales are concentrated more in metro cities like Mumbai and Delhi



Category	Sum of Sales
Accessories	30500
Electronics	283000
Fashion	16400
Grand Total	**329900**

Key Insights

Electronics category generates the highest sales (283000), significantly outperforming other categories
Accessories (30500) perform better than Fashion (16400), but both are much lower than Electronics
The company should prioritize Electronics while exploring strategies to improve Fashion category performance
